Re: Updated Surety Amounts for Mine Permit Transfers, Energy Fuels Nuclear, Inc., La Sal -
Snowball Mine M/037/026, and Rim-Columbus Mine M/037/006, San Juan County, Utah

Dear Mr. VanHorn:

Attached are calculation sheets updating the reclamation surety amounts for the LaSal-Snowball Mine and the Rim-Columbus Mine. These new surety amounts will need to be posted before the Division can formalize the transfer of these sites from Umetco Minerals Corp. to Energy Fuels Nuclear, Inc. The surety amounts required by the Division are \$165,900 for the LaSal-Snowball Mine and \$44,100 for the Rim-Columbus Mine. Both amounts have been escalated five years into the future to the year 2002 dollars. Both surety documents will need to jointly list the State of Utah, Division of Oil, Gas and Mining, and the U.S.D.I. Bureau of Land Management, because of the involvement of federal lands. Please contact me if you do not have our joint surety forms.

As we recently discussed over the phone, in order for the Division to prepare Board packages for the January 22, 1997, Board Hearing our office would need correct draft copies of the Reclamation Contracts and Reclamation Sureties by January 3, 1997. The original signed copies of these documents and the Transfer Forms would need to be received by the Division prior to the Board Hearing date. The next Board Hearing is on February 26, 1997, with the corresponding deadline for Division receipt of Board package information of February 7, 1997.

Please contact me or Wayne Hedberg if you have any questions regarding the Division's forms or the permit transfer process.

Sincerely,

Anthony A. Gallegos
Senior Reclamation Specialist
